

# DAY 11

*...I (GOD) will bring you into the land...*

Exodus 6:8 NLT

If you are afraid of the “new season” that looms ahead because you are unsure of God’s sustaining power – consider how God took care of His people in the past. He is the same “yesterday, today and forever”. If He can help His people far back in history He will also help them in the here-and-now. If God is the author of the “new season” that is about to come upon you than it is His responsibility to take you through the season victoriously. Think for a moment of the great Exodus out of Egypt. Conservatively scholars say that not more than 4 million (some say 6 million) people including converted gentiles left Egypt. They also brought all their livestock with them. For 40 years God fed people for 365 days. If people ate 3 times a day that would mean 175.2 Billion meals was provided for the Exodus campaign. Furthermore, God provided food for all their livestock. God also provided water for everyone, he provided protection for their clothing and they had air-conditioning by day and heating by night. God also gave them victory over their bloodthirsty, cannibalistic, disease-ridden, and human sacrificing enemies. God brought them to the Promised Land as decreed. If this is what God can do, then you can be assured that He is more than capable of helping you through the “new season” that you face.

# EL'TRISH MINISTRIES

---

This ministry has a focal point of reaching EAST AFRICA with the Gospel of Jesus Christ; as well as training pastors and missionaries so they can effectively disciple their people in their communities. This ministry also spends much time praying for the nations to come to Christ Jesus. Etrisia Lillie from El'Trish Ministries asks us to pray for the following:

1. Thank god that I am his child and for a relationship with Him
2. My family to serve God in full, to love God's word. Pray that our family to stand in unity.
3. The prayers teams I am leading. That there will be good response and answered prayers.
4. Wisdom for the work I do.
5. Souls and more souls to know Jesus every day, especially from among the unreached people groups.
6. Zelda's health: She has lost a lot of weight and has some problems with her kidneys and immune system. Please also pray for her for friends.
7. Also to get out of all debt.
8. I thank God for my health but I need a new liver.
9. I thank god for all the privilege that I have.
10. I pray for doors to open that I can start with evangelism again after lockdown.

Additional prayer:

Pray that international borders will reopen so missionaries like Etrisia can go to the countries they work in with no restrictions.
